Ear Tag : ASHBASUK204

Microchip : 982000361846878

Registration Type : Registered

Date of Birth: 5th July 2013

Description:

Zephyrine was born on 05/07/2013 to Accapacca Zahara, a DF import who came to the UK in the same group as Tulley.

Zephyrine won the DF Junior Class at the 2014 BAS National Show and then helped Tulley win the Light & White Sire's Progeny Class. She then won Champion Fawn Female at the HofE Spring Fiesta and was 2nd (& Res Champion) at the HofE National Fleece show, al in 2014.

Zephyrine's fleece is a curiosity and a miracle. As a Junior she was at the darkest end of DF, so the two LBR spots on her flank did not get noticed. But as time has gone on, her fleece has lightened to at least MF if not LF, but leaving her two spots the same DF/LBR colour ! However, to make up for this, her 4th fleece was 17 mc !!

Zephyrine's daughter Rebecca won DF Intermediate Reserve Champion at the 2019 National Show, in spite of a considerable white spot on her forehead. Her 2018 cria is a not very well grown out male, but with a MF fleece to die for (available to view). Zephyrine's 2020 DF cria by Uluru called Zazou has one of the two best fleeces on the farm (and she is for sale, with or without her mother).

Zephyrine is spitting off.
