Description:

Cupcake is the daughter of Tai Wind Captain Morgan (TB) bred to ACC Speculate, a SW with generations of nothing but white on her pedigree but who has previously failed to produce a white cria. She did finally produce a white cria in 2019, when bred to Uluru (a solid colour DF).

Cupcake's entire blanket is solid DF, but her neck and head are solid white! In 2020 I bred her to Mandinka, hoping for an Appaloosa.

Cupcake is due to birth in August 2021.
